LIME PULVER AS-**SURED FARMERS**

Bank of Hardinsburg & Trust Co., Will Advance Necessary Funds to Secure Shipment.

The Bank of Hardinsburg has again demonstrated its interest in the welfare of the farmers of the county by offering to advance the necessary funds to pay the freight on the state lime pulver that will arrive in the and as a magistrate and is the post-near future. The pulver will be loaned master at Fisher, Ky, at present free to the farmers of the county, the state only asking that the farmers pay the freight. A small fee will be collected from each farmer using the pulver to reimburse the bank for the freight

By careful records Breckinridge county farmers have found that they can get out rock and pulverize it for less than \$1 per ton. Considering that in some parts of the country farmers Three Coaches and Baggage are spending as high as \$8 per ton to get lime on their farms, this is a remarkable proposition. Few farmers can afford to turn down the State's proposition.

Any farmer interested in the pulver should get in touch with the County Agent or the Bank of Hardinsburg.

FARMERS THINK 1921 CROP SHOULD BE ELIMINATED

This Was General Opinion Expressed at Farmers Institute in Hardinsburg, Monday and Tuesday. Women Hold Conference Too.

"That the 1921 tobacco crop in Breckinridge county should be eliminated." was the general consensus of opinion among the leading farmers of the county who attended the Farm-WEDNESDAY EVE ers Institute held in Hardinsburg, Monday and Tuesday of this week. The farmers vied among themselves that they would not get anything for this year's crop unless they cut out the 1921 crop, but they did not enter into any written agreement to that effect.

THE PRESIDENT-ELECT

Something happened the other day that has never before happened in the history of the United States. It was when President-elect Harding addressed the Senators it being the first time that a Senator ever came before his colleagues as the President-to-be.

It did not take Senator Harding but ten minutes to deliver his speech before the Senators. But he told them concisely enough what lay before them, and that they were facing "no easy task."

At present all eyes are on the President-elect waiting and watching to

know his plans, his policies and those whom he will choose to serve on his cabinet. True enough, it is "no easy task" before him and that great body

Senators to govern the affairs of the country.

We are looking forward to better times, but there never will be a time when everybody is satisfied. Contenment comes from within. Each administration has its good and bad points. The best thing is for each individual to look for the good, be patient with the bad, and be cooperative in spirit as far as possible, with the high chief and those in power.

The Editor of The Breckenridge News, has in the past few weeks, received several communications from some of its readers without any signature. Such communications have been in the form of personal items, obituaries, engagement announcements, etc., and wer not published because they were without signature.

We urgently request our contributors to always sign their name if they would be sure of having their items, etc., printed. It is our pleasure to publish them when properly signed.

The Breckenridge News publishes the many Santa Clause letters with great pleasure, and we hope Santa will not miss seeing a single one of them, ably the wing shots of the county so that these precious little folks may have every desire fulfilled at this happy having killed 175 birds in the last few

Hambone says there is no difference between the Republican and Democrats "'ceptin' around election time," which is pretty nearly the truth.

The word "Christmas" loses all of its beauty and charm when we write it "Xmas." It doesn't take much longer to give it its proper spelling.

When in doubt send The Breckenridge News, which will be a reminder of the giver fifty-two times a year.

Of course you're almost ready and will avoid that Christmas rush once

in your life anyway.

There's some good Christmas suggestions in the advertisements of this to be delivered at Hawesville.

PRINT PAPER

We are in receipt of a communica-tion from one of the best authorities in the country on the print paper sit-uation. He says: "The Canadian paper manufacturers-especially those who export largely-have announced an advance of \$5.00 per ton, on news print, effective on January first, 1921.

"It is understood that the American manufacturers will make no reduction in the 1921 contract prices. 'The world is using news print fas-

ter than it is produced and stocks are being depleted. It does not ap-pear, therefore, that prices, at least to the small consumer, will be reduced to any extent for several years. "It is true that experiments are be-

ing made to find a practical substitute for wood pulp and these may prove of benefit at some time in the future but these developments are slow and xpensive and their success is more or less problematical and they can have no effect on the paper market within five or six years at the very earliest."

The publisher of a weekly news-paper must, of he is wise take these matters into consideration and raise and keep his advertising and subscription rates high enough to provide for the present prices of news print and a probable increase for 1922.— The Business Printer.

"I Spent \$1 on Rat-Snap and Saved the Price of a Hog."

James McGuire, famous Hog Raiser of New Jersey, says, "I advise every farmer troubled with rats to use RAT-SNAP. Tried everything to get rid of rats. Spent \$1.25 on RAT-SNAP. ANNOUNCEMENT

On and after January 1, 1921 I am going to adopt a cash system for selling merchandise. I will sell for cash only. I am doing this for two reasons. One is it will place me in position to sell you goods from 10 to 15 per cent less than I can sell them now. The capital it takes to carry long standing accounts compels a merchant to sell goods for a larger per cent of profit. Besides it enables the man that pays cash to buy his goods a great deal cheaper and the man that buys on credit can borrow money and save from 6 to 10 per cent by paying cash. And another thing it eliminates all rrors that are liable to happen in book keeping.

Second, it will do away with the work and expense of keeping books which adds largely to the overhead cost of doing business. As I am going to adopt the cash system would ask that everyone who is indebted to please make their arrangemnts to settle all accounts by the 1st of the New Year 1921.

I am sure it will mean much in dollars and cents to both parties

I want to thank my many friends and customers for past favors and solicit your valuable patronage in the future.

E. A. HARDESTY, Stephensport, Ky.
